

Is It Bullying?

How do you know if you or someone else is being bullied? There is a difference between a disagreement (which we have just learned about), joking around and bullying.

Disagreement

When two people are having an argument or disagreement and a solution can usually be found.

Joking Around

When everyone is having fun and participating equally. Most importantly, no one is getting hurt.

One-Time Thing

When someone is being mean on purpose but it happens once and doesn't repeat itself.

Bullying

When someone is being mean on purpose and it happens again and again.
